

NATIONAL MAMMOGRAPHY DATABASE DATA ELEMENTS - August 13, 2022 - Versions 2.0 and 2.2

Text in red indicates changes since the November 24, 2021, version of this document.

August 13, 2022 changes: "Other" and "Unknown" options added for patient sex						Mapping from BI-RADS® Data Dictionary (4th edition)		Mapping from ACR/BCSC Data Dictionary (BI-RADS® 4th edition)	
Element Name	Definition	Answer	Use	Format	Max. Length	Closest equivalent	Mapping	Closest equivalent	Mapping
NMD File Version Number	NMD File Version Number	2.0 2.2	Required	Numeric	5	None	Not applicable	None	Not applicable
Facility ID (applicable to version 2.2 only)	APPLICABLE TO VERSION 2.2 ONLY NRDR Facility ID		Required	nnnnnn	6	None	Not applicable	None	Not applicable
Patient Last Name	Indicate the patient's last name.		Required		45	None	Not applicable	I.4 Last name (30 chars)	Direct mapping
Patient First Name	Indicate the patient's first name.		Required	Alphanumeric	45	None	Not applicable	I.3 First name (30 chars)	Direct mapping
Patient's Middle Name(s)	Indicate the patient's middle name.		Optional	Alphanumeric	45	None	Not applicable	I.6 Middle initial (2 chars)	Direct mapping
Patient ID	Facility-specific unique patient identifier		Conditional: required if Patient SSN, Old Patient MBID and New Patient MBID not provided	Alphanumeric	50	None	Not applicable	I.3 Patient ID (10 chars)	Direct mapping

NATIONAL MAMMOGRAPHY DATABASE DATA ELEMENTS - August 13, 2022 - Versions 2.0 and 2.2

Text in red indicates changes since the November 24, 2021, version of this document.

August 13, 2022 changes: "Other" and "Unknown" options added for patient sex						Mapping from BI-RADS® Data Dictionary (4th edition)		Mapping from ACR/BCSC Data Dictionary (BI-RADS® 4th edition)	
Element Name	Definition	Answer	Use	Format	Max. Length	Closest equivalent	Mapping	Closest equivalent	Mapping
Patient SSN	Indicate the nine-digit Patient's Social Security Number (SSN).		Conditional: required if Patient ID, Old Patient MBID and New Patient MBID not provided	nnn-nn-nnnn	11	None	Not applicable	None	Not applicable
Old Patient Medicare Beneficiary ID (Applicable to Version 2.2 only)	APPLICABLE TO VERSION 2.2 ONLY Indicate patient's Medicare Beneficiary ID, if issued prior to April 1, 2018		Conditional: required if Patient ID, Patient SSN and New Patient MBID not provided	Alphanumeric	12	None	Not applicable	None	Not applicable
New Patient Medicare Beneficiary ID (Applicable to Version 2.2 only)	APPLICABLE TO VERSION 2.2 ONLY Indicate patient's Medicare Beneficiary ID, if issued on or after April 1, 2018		Conditional: required if Patient ID, Patient SSN and Old Patient MBID not provided	xxxx-xxx-xxxx or xxxxxxxxxxxx Alphanumeric	13	None	Not applicable	None	Not applicable
Patients ZIP Code / Postal Code	Indicate U.S. ZIP code or Canadian postal code.		Optional	Alphanumeric	10	p.283 Patient ZIP Code	Direct mapping	l.12 ZIP code (9 chars)	Direct mapping
Date of Birth	Indicate the patient's date of birth.		Optional	mm/dd/yyyy	10	p.283 Patient Date of Birth (mm/dd/yyyy)	Direct mapping	l.14 Date of birth (mmddyyyy)	Direct mapping

NATIONAL MAMMOGRAPHY DATABASE DATA ELEMENTS - August 13, 2022 - Versions 2.0 and 2.2

Text in red indicates changes since the November 24, 2021, version of this document.

August 13, 2022 changes: "Other" and "Unknown" options added for patient sex						Mapping from BI-RADS® Data Dictionary (4th edition)		Mapping from ACR/BCSC Data Dictionary (BI-RADS® 4th edition)	
Element Name	Definition	Answer	Use	Format	Max. Length	Closest equivalent	Mapping	Closest equivalent	Mapping
First Degree Relative with Breast Cancer	Select "Yes" if there is at least one first degree relative (mother, sister, daughter) who had a breast cancer diagnosis. Select "Unknown" if all answers are unknown, select "No" for any other combination.	Select one: 0-No 1-Yes 9-Unknown	Optional	Numeric	1	p.290 Risk factors <i>Intermediate family history of breast cancer</i> <i>Very strong family history of breast cancer</i> <i>Family history unknown</i>	"Intermediate..." or "Very strong" = 1 "Family history unknown" = 9 Anything else = 0	I.68 Mother ever diagnosed with breast cancer I.70 Sister(s) ever diagnosed with breast cancer I.72 Daughter(s) ever diagnosed with breast cancer 0 No 1 Yes 9 Not sure	If any of I.68, I.70 and I.72 = 1, then 1. If all of I.68, I.70 and I.72 = null or 9, then 9. Anything else = 0.
Personal History of Breast Cancer	Indicate whether the patient has a history of breast cancer.	Select one: 0-No 1-Yes 9-Unknown	Optional	Numeric	1	p.290 Risk factors <i>Personal breast cancer history</i>	"Personal..." = 1 Anything else = 0	p.315 Have you ever been diagnosed with breast cancer? 0 No 1 Yes 9 Unknown	Direct mapping

August 13, 2022 changes: "Other" and "Unknown" options added for patient sex						Mapping from BI-RADS® Data Dictionary (4th edition)		Mapping from ACR/BCSC Data Dictionary (BI-RADS® 4th edition)	
Element Name	Definition	Answer	Use	Format	Max. Length	Closest equivalent	Mapping	Closest equivalent	Mapping
HRT / Hormone Use	Indicate whether the patient currently uses any hormone-related medications or hormone replacement therapy, e.g., Premarin, tamoxifen, raloxifene. Do not include thyroid medications or hormone-based birth control.	Select all that apply: <ul style="list-style-type: none"> •None •Hormone-replacement therapy •Tamoxifen or raloxifene •Other •Unknown Note: If "None" or "Unknown" is selected, then no other choice should be selected.	Optional	Numeric (5 fields): 0-Selection does not apply 1-Selection applies	5 fields with a max. length of 1	p.286 Currently using Estrogen p.286 Currently using Progesterone p.287 Currently using Tamoxifen	"Currently using Estrogen" = "Hormone replacement therapy" "Currently using Progesterone" = "Hormone replacement therapy" "Currently using Tamoxifen" = "Tamoxifen or raloxifene"	I.88 Currently taking hormone replacement I.93 Currently taking Tamoxifen or Raloxifene I.97 Currently taking other hormone medications 0 No 1 Yes 9 Unknown	If I.88 = 1, then "Hormone replacement therapy" If I.93 = 1, then "Tamoxifen or raloxifene" If I.97 = 1, then "Other" If all fields = 0, then "None" If at least one field = 9 or null and all other fields = 0, 9 or null, then "Unknown"
Height	Indicate height to the nearest inch.		Optional	Numeric	2	p.285 Patient Height	Direct mapping	I.102 Current height in inches xx Height 88 Structural missing 99 Unknown	If 88 or 99, then null, else direct mapping
Weight	Indicate weight to the nearest pound.		Optional	Numeric	3	p.285 Patient Weight	Direct mapping	I.103 Current weight in inches 88 Structural missing 99 Unknown	If 88 or 99, then null, else direct mapping
Date of Last Natural Period	Indicate date last natural period began. If day is unknown, use 01; if month is unknown use 01.		Optional	mm/dd/yyyy	10	None	Not applicable	I.82 Date when last menstrual period began (mmddyyyy)	Direct mapping
Date of Examination	Indicate the date of the mammogram.		Required	mm/dd/yyyy	10	p.285 Mammogram Study Date (mm/dd/yyyy)	Direct mapping	I.2 Exam date (mmddyyyy)	Direct mapping
Rescheduled Exam (applicable to version 2.2 only)	Indicate if this exam was previously scheduled on an earlier date and changed for any reason (applicable to version 2.2 only).	Select one: N-No Y-Yes U-Unknown	Optional	Alphanumeric	1	None	Not applicable	None	Not applicable

NATIONAL MAMMOGRAPHY DATABASE DATA ELEMENTS - August 13, 2022 - Versions 2.0 and 2.2

Text in red indicates changes since the November 24, 2021, version of this document.

August 13, 2022 changes: "Other" and "Unknown" options added for patient sex						Mapping from BI-RADS® Data Dictionary (4th edition)		Mapping from ACR/BCSC Data Dictionary (BI-RADS® 4th edition)	
Element Name	Definition	Answer	Use	Format	Max. Length	Closest equivalent	Mapping	Closest equivalent	Mapping
Originally scheduled exam date (applicable to version 2.2 only)	Indicate the date on which the exam was previously scheduled. If the exam has been rescheduled multiple times, use the first originally scheduled date of exam (applicable to version 2.2 only).		Optional	mm/dd/yyyy	10	None	Not applicable	None	Not applicable
Reschedule Reason (applicable to version 2.2 only)	Indicate the primary reason the exam was rescheduled (applicable to version 2.2 only).	Select one: 1 - Patient Reason: COVID/coronavirus related; 2 - Patient Reason: Other; 3 - Facility Reason: COVID/coronavirus related; 4 - Facility Reason: Other; 9 - Reason Unknown	Optional	Numeric	1	None	Not applicable	None	Not applicable
NPI of Interpreting Radiologist	Indicate NPI of the MSQA-qualified interpreting radiologist.		Optional	Numeric	10	None	Not applicable	None	Not applicable

Element Name	Definition	Answer	TID ¹	Name / Context name	Code Meaning	Mapping
Management recommendation(s)	Indicate all recommendations that apply.	Select all that apply: 1.Normal interval follow-up mammography 2.Short interval follow-up mammography 3.Additional views 4.Ultrasound 5.Nuclear medicine 6.MRI 7.Clinical exam 8.Surgical consult 9.FNA 10.Biopsy 11.Compare with previous mammograms 88.Other	4200 > 4208 > 4206 > 4203 and 4200 > 4208 > 4203	Recommended Follow-up (1 or more occurrences, optional)	(CID 6028) Recommended Follow-up from BI-RADS® •Additional projections •Magnification views •Spot compression •Spot magnification view(s) •Ultrasound procedure •Old films for comparison •Mammary ductogram •Normal interval follow-up •Any decision to biopsy should be based on clinical assessment •Follow-up at short interval (1-11 months) •Biopsy should be considered •Needle localization and biopsy •Histology using core biopsy •Suggestive of malignancy – take appropriate action •Cytologic analysis •Biopsy should be strongly considered •Highly suggestive of malignancy – take appropriate action •Known biopsy proven malignancy – take appropriate action •MRI of breast Other •Follow-up post biopsy as directed by clinician •Nuclear medicine procedure •Evaluation procedure •Surgical consult	Additional projections = 3 Magnification views = 3 Spot compression = 3 Spot magnification view(s) = 3 Ultrasound procedure = 4 Normal interval follow-up = 1 Follow-up at short interval = 2 Biopsy should be considered = 10 Needle localization and biopsy = 10 Histology using core biopsy = 10 Biopsy should be strongly considered = 10 MRI of breast = 6 Follow-up post biopsy as directed by clinician = 10 Nuclear medicine procedure = 5 Surgical consult = 8 Suggestive of malignancy = 8, 9 and 10 Highly suggestive of malignancy = 8, 9 and 10 Others = 88

NATIONAL MAMMOGRAPHY DATABASE DATA ELEMENTS - August 13, 2022 - Versions 2.0 and 2.2

Text in red indicates changes since the November 24, 2021, version of this document.

August 13, 2022 changes: "Other" and "Unknown" options added for patient sex			Mapping from DICOM			
Element Name	Definition	Answer	TID ¹	Name / Context name	Code Meaning	Mapping
Description of the Most Significant Mammogram Finding	Indicate the choice that most accurately describes the most significant mammogram finding.	Select one: 0-None 1-Mass 2-Calcification 3-Architectural distortion 4-Asymmetries 8-Other	4200 > 4208 > 4206	Finding (1 or more occurrences, mandatory)	(CID 6054, includes 6016,6057(n/a),6064(n/a)) Breast Imaging Findings <ul style="list-style-type: none"> Breast normal Calcification of breast Implant Mammography Composite Feature (CID 6016, includes 6014(n/a),6017) <ul style="list-style-type: none"> Mass with calcifications Single Image Finding from BI-RADS (CID 6017) <ul style="list-style-type: none"> Mammographic breast density Individual Calcification Calcification Cluster Architectural distortion of breast Tubular density Intra-mammary lymph node Trabecular thickening of breast Breast composition Skin retraction of breast Skin thickening of breast Axillary adenopathy Skin lesion Cooper's ligament changes Edema Mass in the skin Mass on the skin Axillary lymph node 	If only 1: ===Breast normal = 0 ===Calcification of breast = 2 ===Individual calcification = 2 ===Calcification cluster = 2 ===Architectural distortion of breast = 3 ===Mass with calcifications = 1 ===Mass in the skin = 1 ===Mass on the skin = 1 ===Anything else = 8 More than 1: = 8

NATIONAL MAMMOGRAPHY DATABASE DATA ELEMENTS - August 13, 2022 - Versions 2.0 and 2.2

Text in red indicates changes since the November 24, 2021, version of this document.

August 13, 2022 changes: "Other" and "Unknown" options added for patient sex			Mapping from DICOM			
Element Name	Definition	Answer	TID ¹	Name / Context name	Code Meaning	Mapping
Integrated Assessment Category	Indicate integrated assessment category, i.e., assessment category incorporating the findings of both mammography and ultrasound if performed on the same day. If the assessment for each breast is different, indicate the assessment with the higher level of concern. Categories 1-3 indicate the lowest levels of concern, Category 0 indicates the next level, and Categories 4-5 indicate the highest levels. Do not include mammography examinations with final assessments of 6 (Known malignancy).	Select one: 0 - Need additional imaging evaluation 1 - Negative 2 - Benign finding 3 - Probably benign finding 4 - Suspicious abnormality 5 - Highly suggestive of malignancy 9 - Unknown	4200 > 4208 > 4203	Assessment Category (<i>exactly 1 occurrence, mandatory</i>)	(CID 6026) Mammography Assessment Assessment from BI-RADS® ●0 - Need additional imaging evaluation ●1 – Negative ●2 – Benign Finding ●3 - Probably Benign Finding – short interval follow-up ●4 - Suspicious abnormality, biopsy should be considered ●4A – Low suspicion ●4B – Intermediate suspicion ●4C – Moderate suspicion ●5 - Highly suggestive of malignancy, take appropriate action ●6 - Known biopsy proven malignancy Other ●Post Procedure Mammograms for Marker Placement	If multiple assessments, select highest level of concern (see Column B). 4, 4A, 4B, 4C = 4 0, 1, 2, 3, 5 = direct mapping Discard all others

NATIONAL MAMMOGRAPHY DATABASE DATA ELEMENTS - August 13, 2022 - Versions 2.0 and 2.2

Text in red indicates changes since the November 24, 2021, version of this document.

August 13, 2022 changes: "Other" and "Unknown" options added for patient sex			Mapping from DICOM			
Element Name	Definition	Answer	TID ¹	Name / Context name	Code Meaning	Mapping
Subcategory of Integrated Assessment Category 4	Indicate subcategory of Integrated Assessment Category 4, if applicable.	Select one: 0-Not applicable 1-4A - Low suspicion level 2-4B - Intermediate suspicion level 3-4C - Moderate suspicion level 9-Unknown	4200 > 4208 > 4203	Assessment Category (<i>exactly 1 occurrence, mandatory</i>)	(CID 6026) Mammography Assessment Assessment from BI-RADS® ●0 - Need additional imaging evaluation ●1 – Negative ●2 – Benign Finding ●3 - Probably Benign Finding – short interval follow-up ●4 - Suspicious abnormality, biopsy should be considered ●4A – Low suspicion ●4B – Intermediate suspicion ●4C – Moderate suspicion ●5 - Highly suggestive of malignancy, take appropriate action ●6 - Known biopsy proven malignancy Other ●Post Procedure Mammograms for Marker Placement	If multiple assessments, select highest level of concern. 4A = 1 4B = 2 4C = 3 4 = 9 0, 1, 2, 3, 5 = 0 Discard all others
Final disposition, if recorded assessment is 0	Indicate final disposition if the recorded assessment is 0 and additional imaging is performed at a different facility.	Select one: 1 - Negative 2 - Benign finding 3 - Probably benign finding 4 - Suspicious abnormality 5 - Highly suggestive of malignancy 9 - Unknown	Not applicable	Not applicable	Not applicable	Not applicable

NATIONAL MAMMOGRAPHY DATABASE DATA ELEMENTS - August 13, 2022 - Versions 2.0 and 2.2

Text in red indicates changes since the November 24, 2021, version of this document.

August 13, 2022 changes: "Other" and "Unknown" options added for patient sex			Mapping from DICOM			
Element Name	Definition	Answer	TID ¹	Name / Context name	Code Meaning	Mapping
Film or Digital	Indicate whether the image was recorded on film or digitally. If unknown, indicate "film".	Select one: 1-Film 2-Digital	4200 > 4208 > 4201	Procedure reported (<i>exactly 1 occurrence, mandatory</i>)	(CID 6050) Breast Procedure Reported <ul style="list-style-type: none"> •Film Screen Mammography •Digital Mammography •Ultrasonography of breast •MRI of breast •Pre-biopsy localization of breast lesion •Fine needle aspiration of breast •Diagnostic aspiration of breast cyst •Core needle biopsy of breast •Breast – surgical biopsy •Mammary ductogram •CT of breast •Radionuclide localization of tumor, limited area •Specimen radiography of breast •Examination of breast •Surgical consult •Mammography CAD •Sentinel lymph node biopsy •Radioisotope scan of lymphatic system •Clip placement •Insertion of catheter 	Film Screen Mammography = 1 Digital Mammography = 2
Use of Computer Aided Detection (CAD)	Indicate whether Computer Aided Detection (CAD) was used.	Select one: 0-No 1-Yes - standard views 2-Yes - additional views 3-Yes - both standard and additional views 4-Yes - NOS 9-Unknown	4200 > 4208 > 4201 AND/OR 4200 > 4208 > 4204 > 4201		(CID 6050) Breast Procedure Reported <ul style="list-style-type: none"> •Mammography CAD •Others 	Mammography CAD = 4

NATIONAL MAMMOGRAPHY DATABASE DATA ELEMENTS - August 13, 2022 - Versions 2.0 and 2.2

Text in red indicates changes since the November 24, 2021, version of this document.

August 13, 2022 changes: "Other" and "Unknown" options added for patient sex			Mapping from DICOM			
Element Name	Definition	Answer	TID ¹	Name / Context name	Code Meaning	Mapping
Double Read	Indicate whether the mammogram was read by more than one radiologist, as part of double-read process.	Select one: 0-No 1-Yes - standard views 2-Yes - additional views 3-Yes - both standard and additional views 4-Yes - NOS 9-Unknown	Not applicable	Not applicable	Not applicable	Not applicable
Biopsy procedure	Indicate the type of biopsy procedure, if biopsy is performed. Enter a choice only if biopsy was performed. If more than one biopsy was performed, report only on the biopsy of the most severe assessment.	Select one: 1-Excisional biopsy 2-Core biopsy 3-Fine needle aspiration 8-Other 9-Biopsy performed, type unknown	4200 > 4208 > 4204 > 4201	Procedure Reported (<i>exactly 1 occurrence, mandatory</i>)	(CID 6050) Breast Procedure Reported ●Film Screen Mammography ●Digital Mammography ●Ultrasonography of breast ●MRI of breast ●Pre-biopsy localization of breast lesion ●Fine needle aspiration of breast ●Diagnostic aspiration of breast cyst ●Core needle biopsy of breast ●Breast – surgical biopsy ●Mammary ductogram ●CT of breast ●Radionuclide localization of tumor, limited area ●Specimen radiography of breast ●Examination of breast ●Surgical consult ●Mammography CAD ●Sentinel lymph node biopsy ●Radioisotope scan of lymphatic system ●Clip placement ●Insertion of catheter	Fine needle aspiration of breast = 3 Diagnostic aspiration of breast cyst =8 Core needle biopsy of breast = 2 Breast - surgical biopsy = 1 Sentinel lymph node biopsy = 8
Biopsy date	Indicate the date the biopsy was performed.		4200 > 4208 > 4204 > 4201	Study date (<i>exactly 1 occurrence, optional</i>)		Direct mapping

NATIONAL MAMMOGRAPHY DATABASE DATA ELEMENTS - August 13, 2022 - Versions 2.0 and 2.2

Text in red indicates changes since the November 24, 2021, version of this document.

August 13, 2022 changes: "Other" and "Unknown" options added for patient sex			Mapping from DICOM			
Element Name	Definition	Answer	TID ¹	Name / Context name	Code Meaning	Mapping
Classification of lesion	Indicate the biopsy result. Use BI-RADS® classification of benign, high risk and malignant.	Select one: 1-Benign 2-High risk 3-Malignant 9-Unknown	4200 > 4208 > 4206 > 4203 > 4207 AND/OR 4200 > 4208 > 4203 > 4207	Procedure Result (<i>exactly 1 occurrence, mandatory</i>)	(CID 6063) Interventional Procedure Results Benign High risk tumor Malignant Insufficient sample Indeterminate result	If missing and "Biopsy date" null, then null. If missing and "Biopsy date" not null, then 9. Benign = 1 High risk tumor = 2 Malignant = 3 Other = 9
Malignancy Type	Indicate malignancy type.	Select one: 1-Invasive carcinoma 2-DCIS 8-Other	4200 > 4208 > 4206 > 4203 > 4207 AND/OR 4200 > 4208 > 4203 > 4207	Pathology (<i>at least 1 occurrence; optional</i>) Malignancy type (<i>exactly 1 occurrence per Pathology; optional</i>)	(CID 6030) Pathology Mammography Pathology Codes Benign Pathology Codes from BI-RADS <i>same as p.300 of BI-RADS with minor wording differences</i> High Risk Lesions Pathology codes from BI-RADS <i>same as p.300 of BI-RADS</i> Malignant Pathology Codes from BI-RADS <i>same as p.300 of BI-RADS with minor wording differences</i> (CID 6159) Malignancy Type Malignancy Type Invasive breast carcinoma Intraductal carcinoma, non-infiltrating Other malignancy type	Invasive breast carcinoma = 1 Intraductal carcinoma, non-infiltrating = 2 Other malignancy type = 8
Tumor Size	Indicate tumor size to the nearest mm. If more than one tumor is found, indicate the size of the largest tumor. Use histopathology tumor size, or if unavailable, then use tumor size at imaging.		Not applicable	Not applicable	Not applicable	Not applicable

NATIONAL MAMMOGRAPHY DATABASE DATA ELEMENTS - August 13, 2022 - Versions 2.0 and 2.2

Text in red indicates changes since the November 24, 2021, version of this document.

August 13, 2022 changes: "Other" and "Unknown" options added for patient sex			Mapping from DICOM			
Element Name	Definition	Answer	TID ¹	Name / Context name	Code Meaning	Mapping
Nodal Status	Indicate nodal stage.	Select one: 1-Negative 2-Positive 9-Unknown	4200 > 4208 > 4206 > 4203 > 4207 AND/OR 4200 > 4208 > 4203 > 4207	Number of nodes removed (<i>exactly 1 occurrence per Pathology; optional</i>) Number of nodes positive (<i>exactly 1 occurrence per Pathology; mandatory if "nodes removed" > 0</i>)		Missing = null If "Number of nodes removed" = 0, then 1, else If "Number of nodes positive" = 0 then 1, else 2
Tumor Stage	Indicate tumor stage. If more than one tumor is found, indicate the stage of the largest tumor.	Select one: 0-Stage 0 1-Stage I 2-Stage II 3-Stage III 4-Stage IV	4200 > 4208 > 4206 > 4203 > 4207 AND/OR 4200 > 4208 > 4203 > 4207	Tumor stage finding (<i>exactly 1 occurrence per Pathology, optional</i>)	(CID 6068) Tumor stages from AJCC Stage 0 Stage I Stage IIA Stage IIB Stage IIIA Stage IIIB Stage IIIC Stage IV	Direct mapping. Disregard the alpha character in the Stage designation.
Sex	Indicate the patient's sex at birth	Select one: 1-Male 2-Female 3-Other 9-Unknown	DICOM header			M = 1 F = 2 anything else = null
			4200 = Breast Imaging Report 4201 = Breast Imaging Procedure Reported (included in 4208, at least 1 occurrence, mandatory; ALSO in 4205, at least 1 occurrence, optional; ALSO in 4204, exactly 1 occurrence, mandatory) 4203 = Breast Imaging Assessment (included in 4206, exactly 1 occurrence, optional; AND/OR included in Overall Assessment (exactly 1 occurrence, optional) in 4208, exactly 1 occurrence, mandatory) 4204 = Breast Imaging Report Intervention Section (included in 4208, at least 1 occurrence, optional) 4205 = Breast Composition Section (included in 4208, exactly 1 occurrence, optional) 4206 = Breast Imaging Report Finding Section (included in 4208, at least 1 occurrence, optional) 4207 = Breast Imaging Pathology Results (included in 4203, at least 1 occurrence, optional; AND/OR included in Specimen (at least 1 occurrence, optional) in 4204, at least 1 occurrence, optional) 4208 = Breast Imaging Report Supplementary Data (included in 4200, exactly 1 occurrence, optional) 9000 = Relevant Patient Information for Breast Imaging 9001 = Gynecological History (included in 9000, exactly 1 occurrence, optional) 9002 = Medication, Substance, Environmental Exposure (included in 9000, exactly 1 occurrence, optional) 9003 = Previous Procedure (included in 9000, exactly 1 occurrence, optional) 9004 = Indicated Problem (included in 9000, exactly 1 occurrence, optional)
